

LAGOM  
THE ESSENCE OF STONE

---

## LAGOM THE ESSENCE OF STONE

<sup>EN</sup>/We live in a fluid age, where we are connected to work 24 hours a day to the detriment of our time: we impatiently wait for answers from our interlocutors at all hours. We are so busy that we forget we have a life. The way out? By deciding together to change our mindsets, behaviours and lifestyles and reclaim the right balance between work and home life. The inspiration comes to us from Sweden. Lagom is the Swedish word for ‘the right amount, neither too much nor too little’. It comes from the phrase “lagom är bäst” which means “the right amount is the best”. The Lagom collection from Terratinta Ceramiche fully embraces this philosophy, treating the natural essence of stone without excess, remaining as true as possible to its identity.

---

<sup>IT</sup>/Viviamo in un’epoca fluida, in cui siamo connessi al lavoro h24 a discapito del nostro tempo personale: aspettiamo impazienti risposte dai nostri interlocutori a tutte le ore. Siamo così occupati da dimenticarci di avere una vita. La via di fuga? Decidere tutti insieme di cambiare mentalità, comportamenti e stile di vita, riappropriandoci del giusto equilibrio fra lavoro e vita domestica.

L’ispirazione ci arriva dalla Svezia. Lagom è la parola svedese che significa “la giusta quantità, né troppo né troppo poco”. Deriva dalla frase “lagom är bäst” che significa “la giusta quantità è la migliore”. La collezione Lagom di Terratinta Ceramiche abbraccia pienamente questa filosofia trattando l’essenza naturale della pietra senza eccessi, mantenendosi fedele quanto più possibile alla sua identità.

EN/A collection that captures the essence of stone by enhancing its typical features to create a balanced texture. Lagom offers the 6 mm thickness in White, Beige, Oyster and Smoke. A material with high technical performance, with the same resistance and reliability as the original collection. With the 6 mm thickness, the possibilities of using Lagom grow exponentially, ensuring that all surfaces can be dressed with the same material.

IT/Una collezione che racchiude l'essenza della pietra valorizzandone i tratti tipici per dare vita a una texture equilibrata. Lagom propone lo spessore 6 mm nei colori White, Beige, Oyster e Smoke. Un materiale dalle elevate prestazioni tecniche, con la stessa resistenza e affidabilità della collezione originale. Con lo spessore 6 mm, le possibilità di utilizzo di Lagom crescono esponenzialmente, per garantire la possibilità di rivestire tutte le superfici con lo stesso materiale.

<sup>EN</sup>The Terrazzo technique, which can be considered one of the macro-trends of recent years, is perfectly in line with the growing interest in all that is “pattern”.

A poor-born material, coming as a cement agglomerate of stone and marble scraps, it takes us back to the Italian history of the 1970s, made up of prestigious floors in Venetian palaces as well as simple floors in the residential homes of the time.

A process we chose for the Lagom collection to “decorate” in a minimalist style, creating a retro and contemporary aesthetic at the same time, perfect for designing welcoming and balanced spaces in terms of both colour and style.

<sup>IT</sup>La lavorazione a Terrazzo, che può considerarsi uno dei macro-trend degli ultimi anni, è perfettamente in linea con il crescente interesse verso tutto ciò che è “pattern”. Un materiale nato povero come agglomerato cementizio di scarti di pietre e marmi, ci riporta alla storia italiana degli anni '70, fatta di prestigiosi pavimenti dei palazzi veneziani così come di semplici pavimenti delle case residenziali del tempo. Una lavorazione che abbiamo scelto per la collezione Lagom per “decorare” in stile minimal creando un'estetica retrò e contemporanea al tempo stesso, perfetto per creare spazi accoglienti ed equilibrati sia per colore che per stile.
